POTTY TRAINING IN CHILD CARE ONLINE CLASS (1 clock hour)

CLASS DESCRIPTION: This training class reviews the importance of readiness and gives guidelines for potty training in a child care program.

LEARNING OBJECTIVES: As a result of this training, participants will be able to:

- Identify the main signs that a child is ready for potty training
- Describe appropriate procedures for potty training in a child care program
- Develop a potty training policy for a child care program

WHAT OTHERS ARE SAYING:

I love that some of the required reading was from Elizabeth Pantly. She has such a gentle approach and really great suggestions. I also really love the message board from other providers and what is in their policies. It was very helpful for a new provider!!

– Melissa N., CO

I learned that not all children are ready at a certain age. There are physical and biological things we have to consider when potty training.

– Nikedra D., GA

I really enjoyed this class; the part that was the most useful was not to push a child to encourage them and they will do it on their own when they are ready.

– Amy C., KY

Information that was particularly useful was the sample potty training policy provided. The grammatical formatting was presented in simple terms for the parent & provider responsibilities of all parties.

– Trina R., GA
