PRESS RELEASE

CHILD CARE LOUNGE OFFERS NEW BITING CLASS

Pittsburgh, PA – October 2011 - Child Care Lounge, an online resource for early childhood professionals, is proud to announce their newest online class for child care teachers.

“Understanding and Responding to Biting” is a one-hour class that will help child care providers learn how to prevent and manage biting. One of the most troublesome child behaviors, from a parent's perspective, is biting. This is true whether the child is the aggressor or the victim. However, biting in child care is a very common behavior from the time children start teething all the way through their toddler years.

The new class is now the 27th class offered by Child Care Lounge. The online classes range from one to twelve clock hours and offer a variety of topics.

About Child Care Lounge:

Child Care Lounge offers many resources for people who care for young children. Specifically targeted towards caregivers, the Child Care Lounge website offers a large amount of ideas for early childhood programs. Since 2005, the popular website has offered a large variety of convenient and affordable online classes that child care providers may use as continuing education hours in their state. Classes are all taught by Joni Levine, M.Ed., founder of the website.
