## New shot required for daycare

The Michigan Department of Community Health is requiring that all children attending licensed daycare facilities, preschool and Head Start programs be immunized with a vaccine that helps prevent bacterial infections leading to pneumonia, meningitis and other diseases.

The new law became effective Jan.1, but daycare providers and schools have until October 1 to comply according to a spokesman for the state health agency.

Health-care providers, daycare facilities and schools have been notified that Prevnar has been included in the Michigan Immunization Registry, and children ages 2 months to 4 years old enrolled in such facilities are required to add this vaccination to other immunizations, including mumps, measles, rubella, polio and others.

*Please make sure to add this to your child's next immunization visit. Compliance is required in order to keep Kids' Land license in good standing with the State of Michigan therefore I will require compliance for enrollment.*

## Stop a Bad Day in it's Tracks!

You know those days. The kids are cranky and pushing all of your buttons. When you feel this happening, try these ideas to regain control of the situation and salvage the day:

- \* Stop everything, sit and the floor and read some quiet books with your kids.
- \* Give your child a warm bath.
- \* Put on some soft, gentle music and encourage everyone to relax.
- \* Turn off the television and turn down the lights.
- \* Talk about how you all can change the mood in the house.

By staying calm yourself, you can keep the situation from accelerating.

## March Preschool News

Preschool begins promptly at 9:30am. If you wish for your child to participate, they need to be here no later than 9:30am. Children arriving after that time will not be able to participate that day as it disrupts the children that have already began and causes delays. Thank you for your cooperation, It is greatly appreciated.
